

American Journal of Physiology: Endocrinology and Metabolism

No. 1. JANUARY 1998

Role of endothelins in regulation of vascular tone in the <i>in situ</i> perfused rat adrenals <i>G. Mazzocchi, L. K. Malendowicz, F. G. Musajo, G. Gottardo, A. Markowska, and G. G. Nussdorfer</i>	E1
Amylin influences insulin-stimulated glucose metabolism by two independent mechanisms <i>A. L. Castle, C.-H. Kuo, and J. L. Ivy</i>	E6
Production and utilization of amino acids by ovine placenta <i>in vivo</i> <i>M. Chung, C. Teng, M. Timmerman, G. Meschia, and F. C. Battaglia</i>	E13
Increased hepatic glucose production response to glucagon in trained subjects <i>R. Drouin, C. Lavoie, J. Bourque, F. Ducros, D. Poisson, and J.-L. Chiasson</i>	E23
Exogenous growth hormone stimulates somatotropic axis function and growth in neonatal pigs <i>T. J. Wester, T. A. Davis, M. L. Fiorotto, and D. G. Burrin</i>	E29
Metabolic inhibition impairs ATP-sensitive K^+ channel block by sulfonylurea in pancreatic β -cells <i>E. Mukai, H. Ishida, S. Kato, Y. Tsuura, S. Fujimoto, A. Ishida-Takahashi, M. Horie, K. Tsuda, and Y. Seino</i>	E38
Effect of cholinergic blockade on inhibited GH secretion by feeding and intraruminal SCFA infusion in sheep <i>N. Matsunaga, M. Wakiya, S. G. Roh, M. Hirota, M. L. He, S. Hidaka, and H. Hidari</i>	E45
Differential effects of rat pregnancy on uterine and lung atrial natriuretic factor receptors <i>P. Vaillancourt, S. Omer, X.-F. Deng, S. Mulay, and D. R. Varma</i>	E52
Effects of acute α_2 -blockade on insulin action and secretion in humans <i>A. Natali, A. Gastaldelli, A. Q. Galvan, A. M. Sironi, D. Ciociaro, G. Sanna, P. Rosenzweig, and E. Ferrannini</i>	E57
Ascorbic acid, a vitamin, is observed by <i>in vivo</i> ^{13}C nuclear magnetic resonance spectroscopy of rat liver <i>E. Küstermann, J. Seelig, and B. Künnecke</i>	E65
Influence of muscle glycogen content on metabolic regulation <i>S. M. Weltan, A. N. Bosch, S. C. Dennis, and T. D. Noakes</i>	E72
Preeexercise muscle glycogen content affects metabolism during exercise despite maintenance of hyperglycemia <i>S. M. Weltan, A. N. Bosch, S. C. Dennis, and T. D. Noakes</i>	E83
Sarcolemmal glucose transport and GLUT-4 translocation during exercise are diminished by endurance training <i>E. A. Richter, P. Jensen, B. Kiens, and S. Kristiansen</i>	E89
Total daily energy expenditure in free-living older African-Americans and Caucasians <i>W. H. Carpenter, T. Fonong, M. J. Toth, P. A. Ades, J. Calles-Escandon, J. D. Walston, and E. T. Poehlman</i>	E96
Short-term training increases human muscle MCT1 and femoral venous lactate in relation to muscle lactate <i>A. Bonen, K. J. A. McCullagh, C. T. Putman, E. Hultman, N. L. Jones, and G. J. F. Heigenhauser</i>	E102
Hindlimb unloading in rat decreases preosteoblast proliferation assessed <i>in vivo</i> with BrdU incorporation <i>O. Barou, S. Palle, L. Vico, C. Alexandre, and M.-H. Lafage-Proust</i>	E108
Responses to angiotensin peptides are mediated by AT ₁ receptors in the rat <i>H. C. Champion, M. A. Czapla, and P. J. Kadowitz</i>	E115

Insulin secretion by gastrin-releasing peptide in mice: ganglionic versus direct islet effect <i>S. Karlsson, F. Sundler, and B. Ahrén</i>	E124
Effect of epinephrine on muscle glycogenolysis and insulin-stimulated muscle glycogen synthesis in humans <i>D. Laurent, K. F. Petersen, R. R. Russell, G. W. Cline, and G. I. Shulman</i>	E130
Sleep-endocrine effects of mifepristone and megestrol acetate in healthy men <i>K. Wiedemann, C. J. Lauer, M. Hirschmann, K. Knaudt, and F. Holsboer</i>	E139
Role for parathyroid hormone in mechanical responsiveness of rat bone <i>J. W. M. Chow, S. Fox, C. J. Jagger, and T. J. Chambers</i>	E146
Fat metabolism in formerly obese women <i>C. Rannersies, J. Bülow, B. Buemann, N. J. Christensen, J. Madsen, and A. Astrup</i>	E155
Effect of a selective rise in sinusoidal norepinephrine on HGP is due to an increase in glycogenolysis <i>C. A. Chu, D. K. Sindelar, D. W. Neal, E. J. Allen, E. P. Donahue, and A. D. Cherrington</i>	E162
Critical evaluation of the combined model approach for estimation of prehepatic insulin secretion <i>R. M. Watanabe, G. M. Steil, and R. N. Bergman</i>	E172

SPECIAL COMMUNICATION

Perfused rat hindlimb is suitable for skeletal muscle glucose transport measurements <i>J. F. P. Wojtaszewski, A. B. Jakobsen, T. Ploug, and E. A. Richter</i>	E184
---	------

LETTERS TO THE EDITOR

Heparin and diabetic nephropathy <i>G. Gambaro and B. Baggio; S. M. Marshall, K. W. Hansen, R. Østerby, J. Frystyk, H. Ørskov, and A. Flyvbjerg</i>	E192
--	------

No. 2. FEBRUARY 1998

AJP CENTENNIAL

Table of Contents 1898	
One hundred years of journal publication <i>T. A. Appel</i>	E195
Editorial <i>L. R. Johnson and B. B. Rauner</i>	E205
Contributions of the American Journal of Physiology to the discovery of insulin <i>I. D. Goldfine and J. F. Youngren</i>	E207

Regulation of fatty acid transport protein and fatty acid translocase mRNA levels by endotoxin and cytokines <i>R. A. Memon, K. R. Feingold, A. H. Moser, J. Fuller, and C. Grunfeld</i>	E210
Atrial natriuretic peptide induces acrosomal exocytosis of human spermatozoa <i>R. Rotem, N. Zamir, N. Keynan, D. Barkan, H. Breitbart, and Z. Naor</i>	E218
Differential effects of thyroid hormone on renin secretion, content, and mRNA in juxtaglomerular cells <i>A. Ichihara, H. Kobori, Y. Miyashita, M. Hayashi, and T. Saruta</i>	E224
Total, resting, and activity-related energy expenditures are similar in Caucasian and African-American children <i>M. Sun, B. A. Gower, T. R. Nagy, C. A. Trowbridge, C. Dezenberg, and M. I. Goran</i>	E232

Acute effects of thyroid hormones on the production of adrenal cAMP and corticosterone in male rats <i>M.-J. Lo, M.-M. Kau, Y.-H. Chen, S.-C. Tsai, Y.-C. Chiao, J.-J. Chen, C. Liaw, C.-C. Lu, B.-P. Lee, S.-C. Chen, V. S. Fang, L.-T. Ho, and P. S. Wang</i>	E238
Effects of ovarian steroid hormones and thyroxine on calcitonin secretion in pregnant rats <i>C.-C. Lu, S.-C. Tsai, S.-W. Wang, C.-L. Tsai, C.-P. Lau, H.-C. Shih, Y.-H. Chen, Y.-C. Chiao, C. Liaw, and P. S. Wang</i>	E246
Synthetic flavonoids cross the placenta in the rat and are found in fetal brain <i>J. P. Schröder-van der Elst, D. van der Heide, H. Rokos, G. Morreale de Escobar, and J. Köhrle</i>	E253
Reduced glucose clearance as the major determinant of postabsorptive hyperglycemia in diabetic rats <i>J. K. Wi, J. K. Kim, and J. H. Youn</i>	E257
A disrupted cholecystokinin A receptor gene induces diabetes in obese rats synergistically with ODB1 gene <i>S. Takiguchi, Y. Takata, N. Takahashi, K. Kataoka, T. Hirashima, K. Kawano, K. Miyasaka, A. Funakoshi, and A. Kono</i>	E265
A_1 adenosine receptor antagonism improves glucose tolerance in Zucker rats <i>B. Xu, D. A. Berkich, G. H. Crist, and K. F. LaNoue</i>	E271
The effect of exercise training on leptin levels in obese males <i>W. J. Pasman, M. S. Westerterp-Plantenga, and W. H. M. Saris</i>	E280
Analysis of insulin-stimulated skeletal muscle glucose uptake in conscious rat using isotopic glucose analogs <i>R. M. O'Doherty, A. E. Halseth, D. K. Granner, D. P. Bracy, and D. H. Wasserman</i>	E287
New insights into interactions between the human PTH/PTHrP receptor and agonist/antagonist binding <i>S. Fukayama, M. Royo, M. Sugita, A. Imrich, M. Chorev, L. J. Suva, M. Rosenblatt, and A. H. Tashjian, Jr.</i>	E297
Regulation of hexokinase II activity and expression in human muscle by moderate exercise <i>J. A. Koval, R. A. DeFronzo, R. M. O'Doherty, R. Printz, H. Ardehali, D. K. Granner, and L. J. Mandarino</i>	E304
Nutritional state regulates insulin receptor and IRS-1 phosphorylation and expression in chicken <i>J. Dupont, M. Derouet, J. Simon, and M. Taouis</i>	E309
5-Hydroxytryptamine-1 receptor activation inhibits endocrine pancreatic secretion in humans <i>B. Coulie, J. Tack, R. Bouillon, T. Peeters, and J. Janssens</i>	E317
Role of human liver lipogenesis and reesterification in triglycerides secretion and in FFA reesterification <i>F. Diraison and M. Beylot</i>	E321
Physiological plasma levels of androgens reduce bone loss in the ovariectomized rat <i>C. K. Lea and A. M. Flanagan</i>	E328
A noninternalized nondesensitized truncated AT_{1A} receptor transduces an amplified ANG II signal <i>S. Conchon, N. Peltier, P. Corvol, and E. Claußen</i>	E336
Insulin acutely suppresses glucose production by both peripheral and hepatic effects in normal dogs <i>R. H. McCall, S. R. Wiesenthal, Z. Q. Shi, K. Polonsky, and A. Giacca</i>	E346
Alterations in basal nutrient metabolism increase resting energy expenditure in sickle cell disease <i>M. J. Borel, M. S. Buchowski, E. A. Turner, B. B. Peeler, R. E. Goldstein, and P. J. Flakoll</i>	E357

SPECIAL COMMUNICATION

Gluconeogenesis measured with [$U-^{13}C$]glucose and mass isotopomer analysis of apoB-100 amino acids in pigs <i>L. J. Wykes, F. Jahoor, and P. J. Reeds</i>	E365
--	------

RAPID COMMUNICATIONS

- Muscle acetyl group availability is a major determinant of oxygen deficit in humans during submaximal exercise
J. A. Timmons, T. Gustafsson, C. J. Sundberg, E. Jansson, and P. L. Greenhaff E377
- A novel ^{13}C NMR method to assess intracellular glucose concentration in muscle, *in vivo*
G. W. Cline, B. M. Jucker, Z. Trajanoski, A. J. M. Rennings, and G. I. Shulman E381

No. 3. MARCH 1998

- Cortisol infusion depresses the ratio of bioactive to immunoreactive ACTH in adrenalectomized sheep fetuses
T. J. Zehnder, N. K. Valego, J. Schwartz, J. Green, and J. C. Rose E391
- Contraction duration affects metabolic energy cost and fatigue in skeletal muscle
M. C. Hogan, E. Ingham, and S. S. Kurdak E397
- Insulin sensitivity is associated with blood pressure response to sodium in older hypertensives
D. R. Dengel, R. V. Hogikyan, M. D. Brown, S. G. Glickman, and M. A. Supiano E403
- Food restriction alters pregnancy-associated changes in IGF and IGFBP in the guinea pig
A. Sohlström, A. Katsman, K. L. Kind, C. T. Roberts, P. C. Owens, J. S. Robinson, and J. A. Owens E410
- Divergent changes in plasma ACTH and pituitary POMC mRNA after cortisol administration to late-gestation ovine fetus
T. M. Jeffray, S. G. Matthews, G. L. Hammond, and J. R. G. Challis E417
- Diurnal rhythm returns to normal after elimination of portacaval shunting
P. A. Hawkins, M. R. DeJoseph, and R. A. Hawkins E426
- Effects of physical exercise on phospholipid fatty acid composition in skeletal muscle
A. Andersson, A. Sjödin, R. Olsson, and B. Vessby E432
- Metabolic-cytokine responses to a second immunological challenge with LPS in mice with *T. gondii* infection
D. Arsenijevic, L. Girardier, J. Seydoux, J. C. Pechere, I. Garcia, R. Lucas, H. R. Chang, and A. G. Dulloo E439
- Minimal influence of blood flow on interstitial glucose and lactate-normal and insulin-resistant muscle
A. Holmäng, M. Müller, O. K. Andersson, and P. Lönnroth E446
- Noradrenergic control of central oxytocin release during lactation in rats
S. L. Bealer and W. R. Crowley E453
- Insulin release transduction mechanism through acid glucan 1,4- α -glucosidase activation is Ca^{2+} regulated
A. Salehi, H. Mosén, and I. Lundquist E459
- β_3 -Adrenergic agonist induces a functionally active uncoupling protein in fat and slow-twitch muscle fibers
T. Yoshida, T. Umekawa, K. Kumamoto, N. Sakane, A. Kogure, M. Kondo, Y. Wakabayashi, T. Kawada, I. Nagase, and M. Saito E469
- Ovariectomy augments B lymphopoiesis and generation of monocyte-macrophage precursors in rat bone marrow
R. G. Erben, S. Raith, J. Eberle, and M. Stangassinger E476
- Metabolism of skin and muscle protein is regulated differently in response to nutrition
X.-J. Zhang, D. L. Chinkes, D. Doyle, Jr., and R. R. Wolfe E484
- Glucose stimulates transcription of fatty acid synthase and malic enzyme in avian hepatocytes
F. B. Hillgartner and T. Charron E493
- Human syncytiotrophoblast NPY receptors are located on BBM and activate PLC-to-PKC axis
J. Robidoux, L. Simoneau, S. St-Pierre, H. Ech-Chadli, and J. Lafond E502

Regulation of fatty acid oxidation in untrained vs. trained men during exercise <i>L. S. Sidossis, R. R. Wolfe, and A. R. Coggan</i>	E510
Distinct localization of GLUT-1, -3, and -5 in human monocyte-derived macrophages: effects of cell activation <i>D. Malide, T. M. Davies-Hill, M. Levine, and I. A. Simpson</i>	E516
Brown fat is essential for cold-induced thermogenesis but not for obesity resistance in aP2-Ucp mice <i>B. Štefl, A. Janovská, Z. Hodný, M. Rossmeisl, M. Horáková, I. Syrový, J. Bémová, B. Bendlová, and J. Kopecký</i>	E527
Angiotensin II-induced Ca ²⁺ mobilization and prolactin release in normal and hyperplastic pituitary cells <i>G. Díaz-Torga, A. G. Iglesias, R. Achával-Zaia, C. Libertun, and D. Becú-Villalobos</i>	E534
Gut mucosal protein synthesis in fed and fasted humans <i>C. Bouteloup-Demange, Y. Boirie, P. Déchelotte, P. Gachon, and B. Beaufrère</i>	E541
Tracer methods underestimate short-term variations in urea production in humans <i>M. J. Hamadeh and L. J. Hoffer</i>	E547
Effect of prior eccentric contractions on lactate/H ⁺ transport in rat skeletal muscle <i>H. Pilegaard and S. Asp</i>	E554

MODELING IN PHYSIOLOGY

Circulatory model in metabolic studies of rapidly renewed hormones: application to ANP kinetics <i>A. Pilo, G. Iervasi, A. Clerico, F. Vitek, S. Berti, C. Palmieri, A. Biagini, and L. Donato</i>	E560
---	------

LETTERS TO THE EDITOR

Minimal model estimate of glucose effectiveness: role of the minimal model volume and of the second hidden compartment <i>A. Caumo and C. Cobelli; D. T. Finegood</i>	E573
--	------

No. 4. APRIL 1998

Properties and purification of a glucose-inducible human fatty acid synthase mRNA-binding protein <i>Q. Li, M. S. Chua, and C. F. Semenkovich</i>	E577
Measurement of dermal collagen synthesis rate in vivo in humans <i>W. A. El-Harake, M. A. Furman, B. Cook, K. S. Nair, J. Kukowski, and I. G. Brodsky</i>	E586
Insulin sensitivity and glucose effectiveness: minimal model analysis of regular and insulin-modified FSIGT <i>G. Pacini, G. Tonolo, M. Sambataro, M. Maioli, M. Ciccarese, E. Brocco, A. Avogaro, and R. Nosadini</i>	E592
Urate uptake and lowered ATP levels in human muscle after high-intensity intermittent exercise <i>Y. Hellsten, B. Sjödin, E. A. Richter, and J. Bangsbo</i>	E600
The large variability in melatonin blood levels in ewes is under strong genetic influence <i>L. A. Zarazaga, B. Malpaux, L. Bodin, and P. Chemineau</i>	E607
Phosphatidylinositol 3-kinase activation is required for insulin-stimulated sodium transport in A6 cells <i>R. D. Record, L. L. Froelich, C. J. Vlahos, and B. L. Blazer-Yost</i>	E611
Ovine fetal leucine kinetics and protein metabolism during decreased oxygen availability <i>J. R. Milley</i>	E618
Melanin-concentrating hormone: a functional melanocortin antagonist in the hypothalamus <i>D. S. Ludwig, K. G. Mountjoy, J. B. Tatro, J. A. Gillette, R. C. Frederich, J. S. Flier, and E. Maratos-Flier</i>	E627

ERK2 mediates oxytocin-stimulated PGE ₂ synthesis <i>Z. Strakova, J. A. Copland, S. J. Lolait, and M. S. Soloff</i>	E634
Time course of insulin action on tissue-specific intracellular glucose metabolism in normal rats <i>S. J. Koopmans, L. Mandarino, and R. A. DeFronzo</i>	E642
Adipose tissue metabolism in the postprandial period: microdialysis and arteriovenous techniques compared <i>L. K. M. Summers, P. Arner, V. Ilic, M. L. Clark, S. M. Humphreys, and K. N. Frayn</i>	E651
The cAMP-response element mediates induction of secretogranin II by CHX and FSK in GH ₄ C ₁ cells <i>L. C. Jones and J. G. Scammell</i>	E656
On the mechanism of lactational anovulation in the rhesus monkey <i>T. Ördög, M.-D. Chen, K. T. O'Byrne, J. R. Goldsmith, M. A. Connaughton, J. Hotchkiss, and E. Knobil</i>	E665
High-protein meals do not enhance myofibrillar synthesis after resistance exercise in 62- to 75-yr-old men and women <i>S. Welle and C. A. Thornton</i>	E677
Whole body and splanchnic metabolic, circulatory, and thermal effects of oral vs. intravenous fat administration <i>T. Brundin</i>	E684
Insulin stimulation of glucose uptake in skeletal muscles and adipose tissues in vivo is NO dependent <i>D. Roy, M. Perreault, and A. Marette</i>	E692
Epinephrine translocates GLUT-4 but inhibits insulin-stimulated glucose transport in rat muscle <i>X.-X. Han and A. Bonen</i>	E700
Ca ²⁺ -induced loss of Ca ²⁺ /calmodulin-dependent protein kinase II activity in pancreatic β-cells <i>P. M. Jones and S. J. Persaud</i>	E708
Insulin secretion rates estimated by two mathematical methods in pancreas-kidney transplant recipients <i>E. Christiansen, L. L. Kjems, A. Vølund, A. Tibell, C. Binder, and S. Madsbad</i>	E716
Effects of age, gender, and senescence on β-adrenergic responses of isolated F344 rat brown adipocytes in vitro <i>A. M. Gabaldón, R. B. McDonald, and B. A. Horwitz</i>	E726
Effect of insulin on glycerol production in obese adolescents <i>C. Robinson, W. V. Tamborlane, D. G. Maggs, S. Enoksson, R. S. Sherwin, D. Silver, G. I. Shulman, and S. Caprio</i>	E737
Insulin-like growth factor-binding protein-5 (IGFBP-5) stimulates phosphorylation of the IGFBP-5 receptor <i>D. L. Andress</i>	E744
Signaling and sites of interaction for RX-871024 and sulfonylurea in the stimulation of insulin release <i>A. M. Efanov, S. V. Zaitsev, I. B. Efanova, S. Zhu, C.-G. Östenson, P.-O. Berggren, and S. Efendic</i>	E751

MODELING IN PHYSIOLOGY

Population-based modeling to demonstrate extrapancreatic effects of tolbutamide <i>A. Rostami-Hodjegan, S. R. Peacey, E. George, S. R. Heller, and G. T. Tucker</i>	E758
--	------

No. 5. MAY 1998

Mechanism of hypoxia-stimulated glucose transport in rat skeletal muscle: potential role of glycogen <i>T. H. Reynolds IV, J. T. Brozinick, Jr., M. A. Rogers, and S. W. Cushman</i>	E773
---	------

Evidence against a role for the growth hormone-releasing peptide axis in human slow-wave sleep regulation <i>R. Moreno-Reyes, M. Kerkhofs, M. L'Hermite-Balériaux, M. O. Thorner, E. Van Cauter, and G. Copinschi</i>	E779
Training-induced alterations in fat and carbohydrate metabolism during exercise in elderly subjects <i>S. Sial, A. R. Coggan, R. C. Hickner, and S. Klein</i>	E785
Effect of pregnancy on the metabolic clearance rate and the volume of distribution of oxytocin in the baboon <i>W. B. Kowalski, L. Diveky, R. Mehendale, M. Parsons, and L. Wilson, Jr.</i>	E791
Glucose-induced pulsatile insulin release from single islets at stable and oscillatory cytoplasmic Ca^{2+} <i>P. Bergsten</i>	E796
Phenylbutyrate-induced glutamine depletion in humans: effect on leucine metabolism <i>D. Darmaun, S. Welch, A. Rini, B. K. Sager, A. Altomare, and M. W. Haymond</i>	E801
Dual-energy X-ray absorptiometry: fat estimation errors due to variation in soft tissue hydration <i>A. Pietrobelli, Z. Wang, C. Formica, and S. B. Heymsfield</i>	E808
Human kidney and liver gluconeogenesis: evidence for organ substrate selectivity <i>M. Stumvoll, C. Meyer, G. Perriello, M. Kreider, S. Welle, and J. Gerich</i>	E817
Dissociation of the effects of amylin on osteoblast proliferation and bone resorption <i>J. Cornish, K. E. Callon, C. Q.-X. Lin, C. L. Xiao, T. B. Mulvey, D. H. Coy, G. J. S. Cooper, and I. R. Reid</i>	E827
PACAP stimulates insulin secretion but inhibits insulin sensitivity in mice <i>K. Filipsson, G. Pacini, A. J. W. Scheurink, and B. Ahrén</i>	E834
Mass isotopomer study of the nonoxidative pathways of the pentose cycle with $[1,2-^{13}\text{C}_2]\text{glucose}$ <i>W.-N. P. Lee, L. G. Boros, J. Puigjaner, S. Bassiliani, S. Lim, and M. Cascante</i>	E843
Effects of thiopental anesthesia on local rates of cerebral protein synthesis in rats <i>C. B. Smith, C. Eintrei, J. Kang, and Y. Sun</i>	E852
Total body lipid and triglyceride response to energy deficit: relevance to body composition models <i>R. Comizio, A. Pietrobelli, Y. X. Tan, Z. Wang, R. T. Withers, S. B. Heymsfield, and C. N. Boozer</i>	E860
Mechanisms contributing to angiotensin II regulation of body weight <i>L. A. Cassis, D. E. Marshall, M. J. Fettinger, B. Rosenbluth, and R. A. Lodder</i>	E867
Glutamate transport asymmetry in renal glutamine metabolism <i>P. Carter and T. C. Welbourne</i>	E877
Insulin inhibits vascular smooth muscle contraction at a site distal to intracellular Ca^{2+} concentration <i>A. M. Kahn, A. Husid, T. Odebunmi, J. C. Allen, C. L. Seidel, and T. Song</i>	E885
Hepatic glucose disposition during concomitant portal glucose and amino acid infusions in the dog <i>M. C. Moore, P. J. Flakoll, P.-S. Hsieh, M. J. Pagliassotti, D. W. Neal, M. T. Monahan, C. Venable, and A. D. Cherrington</i>	E893
Distribution and kinetics of amylin in humans <i>M. Clodi, K. Thomaseth, G. Pacini, K. Hermann, A. Kautzky-Willer, W. Waldhäusl, R. Prager, and B. Ludvik</i>	E903
Genetic and environmental influences on prolactin secretion during wake and during sleep <i>P. Linkowski, K. Spiegel, M. Kerkhofs, M. L'Hermite-Balériaux, A. Van Onderbergen, R. Leproult, J. Mendlewicz, and E. Van Cauter</i>	E909
Intracellular Mg^{2+} regulates ADP phosphorylation and adenine nucleotide synthesis in human erythrocytes <i>S. Page, M. Salem, and M. R. Laughlin</i>	E920
Lymphocyte transfer in streptozotocin-induced diabetes: adhesion of donor cells to islet endothelium <i>M. Enghofer, J. Bojunga, R. Ludwig, A. Oldenburg, A. Bernd, K. H. Usadel, and K. Kusterer</i>	E928

J. Wang, J. T. Alexander, P. Zheng, H. J. Yu, J. Dourmashkin, and S. F. Leibowitz E1057

Extreme hyperinsulinemia unmasks insulin's effect to stimulate protein synthesis in the human forearm <i>T. A. Hillier, D. A. Fryburg, L. A. Jahn, and E. J. Barrett</i>	E1067
Effect of aging on β -adrenergically mediated thermogenesis in men <i>D. A. J. M. Kerckhoffs, E. E. Blaak, M. A. Van Baak, and W. H. M. Saris</i>	E1075
Skeletal muscle malonyl-CoA content at the onset of exercise at varying power outputs in humans <i>L. M. Odland, R. A. Howlett, G. J. F. Heigenhauser, E. Hultman, and L. L. Spriet</i>	E1080
Genetic variability in melatonin concentrations in ewes originates in its synthesis, not in its catabolism <i>L. A. Zarazaga, B. Malpaux, D. Guillaume, L. Bodin, and P. Chemineau</i>	E1086
Remodeling of the HDL in NIDDM: a fundamental role for cholesteryl ester transfer protein <i>C. K. Castle, S. L. Kuiper, W. L. Blake, B. Paigen, K. R. Marotti, and G. W. Melchior</i>	E1091
Preferential utilization of newly synthesized cholesterol for brain growth in neonatal lambs <i>S. D. Turley, D. K. Burns, and J. M. Dietschy</i>	E1099
β -Adrenergic receptor number in human lymphocytes is inversely correlated with aerobic capacity <i>N. Fujii, S. Homma, F. Yamazaki, R. Sone, T. Shibata, H. Ikegami, K. Murakami, and H. Miyazaki</i>	E1106
Response of normal and osteoporotic human bone cells to mechanical stress in vitro <i>J. G. H. Sterck, J. Klein-Nulend, P. Lips, and E. H. Burger</i>	E1113

RAPID COMMUNICATION

Short-term culture of ovine embryos modifies fetal myogenesis <i>E. K. Maxfield, K. D. Sinclair, P. J. Broadbent, T. G. McEvoy, J. J. Robinson, and C. A. Maltin</i>	E1121

The Journal no longer publishes print subject and author indexes. Full searchability is available in the online version (<http://www.ajpendo.org>).

CORRIGENDA

Volume 273, September 1997
Volume 36, September 1997

Pages E650–E654: C. Meyer, V. Nadkarni, M. Stumvoll, and J. Gerich. "Human kidney free fatty acid and glucose uptake: evidence for a renal glucose-fatty acid cycle." Page E650: the primed-continuous infusion rates of [6-³H]glucose were given erroneously as "20–30 μ Ci, 0.2–0.3 μ Ci/min." The correct rates should have read "≈50 μ Ci, ≈0.5 μ Ci/min."
